ENGINEERING ROBUST, USER-FOCUSED SOLUTIONS DRIVING BREAKTHROUGH EFFICIENCY.

Profile

As an innovative and fervent software development engineer, learning and adapting to the constantly evolving field of technology has always been a priority to me. My creative thinking and cognitive abilities help build my software design and development adroitness. Efficient communication skills that I have enhanced over time will prove to be an asset in the work environment.

Programming Skills

- Ruby & Rails
- Javascript
- SQL
- Python
- C

Technical Skills

» Object Oriented Programming
» Functional Programming
» Web Application Development
» Frontend Development
» Algorithms & Data Structures
» Design Patterns
» Monolithic Architecture
» MicroService Architecture
» Data Visualization
» Concurrency & Parallelism
» Embedded Programming
» Systems Programming

Professional Experience

Feb 2019 - Present

Riskcovry.com
